

5 reasons to buy Khoisan Tea products

1 Over a decade of experience

Since 1997, we have been producing and exporting a consistent quality and standard of Rooibos Tea. We, thus, have a solid reputation for quality and service in line with German-style/EU expectations.

2. Khoisan Tea Farm – 100% Organic Rooibos Tea

Our farm management and staff live on-site year-round and oversee everything from planting of seedlings to harvesting, cutting, fermenting, sterilising and packing.

3. All teas certified annually

Kosher, Halaal, HACCP, GMP, FDA registered for USA, PPECB inspected, member Chamber of Commerce of South Africa, member of the Rooibos Council of South Africa

All organic teas & bourbon vanilla ranges certified annually

Lacon EU/USDA NOP

4. Better sifting makes better tea

We recently invested in setting up a complete new sifting and quality system made in Switzerland. This will increase our output to a maximum of 4000 tons per year and will sift more grades to provide cleaner and more uniform Rooibos Tea, with one of the benefits being higher specific weight/volume for teabag cuts.

5. We are flexible with our tea and bourbon vanilla ranges

We ship our bulk teas on a weekly basis and a growing part of our business consists of pre-packaged tea products, loose or in teabags (string/tag envelope included!).

We offer a wide range of organically blended or conventionally flavoured Rooibos Tea products, either under the Khoisan Tea brand or private label for international retail purposes.
